

# PACIFIC EGG & POULTRY ASSOCIATION CALIFORNIA EGG QUALITY ASSURANCE PROGRAM

## VIDEO TAPES

The following tapes were made from live presentations at the training sessions for the California Egg Quality Assurance Program. Editing was very light. They often contain more detailed information than the tapes that were professionally produced, however, tape quality is not as good. These tapes either depict the speaker and/or slides and overheads.

### **professional RE-PRODUCED tapes:**

These tapes were made professionally from scripts prepared from material presented at the original training sessions. The videos were filmed on ranch locations and show details not afforded during live presentations. They were intended for training ranch employees in quality assurance as well as training quality assurance supervisors. They are considerably shorter and of higher quality than the original training tapes.

Tape #14P 12 minutes

**Flock Health Management** - Sponsored by *USDA, Food Safety Inspection Service*

Tape #15P 19.5 minutes

**Cleaning, Disinfection and Biosecurity** - Sponsored by *USDA, Food Safety Inspection Service*

Tape #16P 22 minutes - (Currently not available)

**Invertebrate Pest Management** - Sponsored by *Bayer Corporation*

Tape #17P 46 minutes

**Rodent Control** - Sponsored by *Bayer Corporation, USDA & CDFA*

Tape #18P 20:00 minutes

**Cleaning, Disinfection and Biosecurity** - *Spanish Version of 15P*

Tape #19P 13:00 minutes

**Flock Health Management** - *Spanish Version of 14P*
