Regulatory Compliance Solutions that Mean Business

MISSION STATEMENT

The staff of PEPA/CGFA Services Inc. is here to assist you with the burdensome task of complying with environmental and safety regulations in a practical and cost effective manner. We strive to achieve a level of service that allows our clients to focus on their primary business rather than be embroiled in the quagmire of regulation. We believe that a proper understanding and approach to regulatory compliance will save you significantly more money than it will cost.

We have been here for our members and clients since 1990. In these few years, we have saved them tens of thousands of dollars in fines, penalties and compliance costs.

Pacific Egg & Poultry Association offers proficient, industry-specific consulting services in the areas of Cal/OSHA and environmental compliance. Our unique capabilities allow us to develop compliance programs that provide a broader range of services than most consulting firms. Our programs have passed the most rigorous regulatory inspections. Best of all, we specialize in regulatory compliance within our industry.

Give us a call with any environmental and safety issue and see why many members rely on us for their regulatory compliance needs.
